

Joint Research Grant

Results

Principal Investigator UP

Pia Berger

College of Engineering
Campus AGS

Principal Investigator ND

Kyle Doudrick

College of Engineering

Project title

From Food Waste to Water
Purification: Biopolymer Design
for PFAS Removal

Akito Kamei

School of Government
and Economics
Campus MX

Santosh Kumar Gautam

Keough School
of Global Affairs

Dehydration, Heat Exposure,
and Physical Labor Productivity

Francisco Moreno Abril

College of Engineering
Campus GDL

Tengfei Luo

College of Engineering

Modular Coastal Desalination
and Re-Pumping Systems under
Public-Private Partnership (PPP)
Models for Climate-Resilient
Water Supply.
